## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1,3-6,8-10,13,15 and 19-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nielsen in view of McDuffee and Goncalves as set forth in the previous action on page 3 in the rejection of claims 8-10, 13-15 and 17-20.

The argument that Nielsen is not designed for tablets is not convincing as it is capable of containing tablets and "tablets" are not being claimed. It would have been obvious to construct the Nielsen container in the manner taught by Goncalves in order to glean the advantages as set forth in col. 1, lines 38-42. Also see Fig. 9 of Goncalves as evidence that containers with end structure can be formed in a unitary manner. It would further have been obvious to employ the hole dimensions as taught by McDuffee for the reasons advanced previously.

The request for a telephonic interview on page 10 is noted; however, due to docket management time constraints of this office, this not possible.

Claims 11-12 and 16 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 4/13/05. The requirement is hereby made final for the reasons advanced in the previous paper. Any further communication from applicant should properly label these claims as (withdrawn)

.Any inquiry concerning this communication should be directed to Charles E.

Phillips at telephone number 571-272-4893.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
